2	cant think about that for now..	2/1/2017 5:54 AM
3	Writing, creativity, debate, drama	1/31/2017 3:45 PM
4	The district needs to provide more enrichment opportunities for students: bring back GATE, provide music/art/PE prep for all grade levels, more STEAM programs at the sites. Teachers need more time to collaborate and plan. We need better structure and organization for curriculum at the district level. We need better ways to report to parents students' growth (standards-based report cards).	1/31/2017 7:30 AM
5	Teacher District relations are still low. Teaching load on teachers is exhausting	1/30/2017 11:30 PM
6	Why do we still have minimal days every week? Is GATE program going to be reinstated?	1/30/2017 9:19 PM
7	would like to have longer school hours and more homework just like private school	1/30/2017 6:15 PM
8	Inadequate numbers of substitutes, teacher morale and a need for a better working relationship with the D.O.	1/30/2017 4:57 PM
9	Music, Art and Languages (Spanish, French)	1/30/2017 4:26 PM
10	Merits do not seem to be based on effort and results which is ok for some activities but not all. The "everybody gets a trophy" sets an entitled expectation which is not true in the adult world.	1/30/2017 2:36 PM
11	I have complained MANY times regarding MRs. Blackmans behavior, she makes kids cry, and kids feel like they are not learning and unable to approach teacher. This teacher is not qualified and no one is listening!!! many parents are complaining and no one cares..	1/26/2017 1:05 PM
12	Flexibility is completely overlooked by EESD. Please see additional comments at the end for details.	1/25/2017 11:33 PM
13	Equal learning experience for every child regardless of wealth or perceived financial status due to race by segregating silver oak students from the rest of the district isn't preparing them for life. Consider a uniform at all schools	1/25/2017 9:57 PM
14	Teachers seem overworked and have too many kids in their class. Or some students receive most of the teacher's attention.	1/24/2017 4:09 PM

18	After school programs, homework club	1/23/2017 6:07 PM
19	GATE, buses, spend funds on advanced learners too, more field trips	1/23/2017 3:56 PM
20	I feel that the district could have the student take more field trips where they can have additional experiences that further develop the skills learned in the classroom.	1/23/2017 3:42 PM
21	Absence policy. Make absence due to travel/vacation/international travel excused absence.	1/23/2017 3:10 PM
22	I would like to know what kind of drills are practiced & what is expected of the students. Also,	1/23/2017 3:03 PM
23	traffic safety and transportation	1/23/2017 1:49 PM
24	Smaller class sizes are needed, primary grades should have no more than 24 with the occasional 25 (not all classrooms at 25, especially combination classes), eliminate combination classes (please hire another teacher so our classes could be at 20 and then you can eliminate the combination class), prep for primary grades	1/19/2017 1:04 PM
25	Goal or mission of the district. Lack of strong or clear district leadership.	1/19/2017 11:39 AM

26	effective use of school buses, asking for donations for educational expenses at title 1 schools. field trip donations for transportation at title 1 schools, equal access to extracurricular activities, make awards assemblies a district standard that should be recognized by each school in the same manner	1/18/2017 10:21 PM
27	STEAM-Silver Oak has a lab, but ZERO support from the district or time to develop lessons or utilize the lab. Physical Education it should be more than just "free PE", but teachers don't have time or resources to plan another curriculum area.	1/15/2017 8:08 PM
28	budget allocation, individual school performance, annual education goals	1/15/2017 5:18 PM
29	Art and Music programs	1/14/2017 7:16 PM
30	Top heavy administration.... Maybe money needs to be allocated to the schools and not on more administrative positions just made up and have no real purpose. Less hostility toward teachers and trying harder to retain quality teachers (forced layoffs last year let many excellent teachers go). New, more modern social studies and Science textbooks. What my students are using now are over 8 years old; according to publishing date. Science not up to STEAM standards and social studies needs to be more up with the times.	1/14/2017 4:45 PM
31	1) Why does the district feel the need to build a new school and close a school that already exist? 2) why were voters misinformed for a remodel of Dove Hill Elementary and denied any necessary repairs? 3) why are the water fountains in the cafeteria at Dove Hill not working? Our children need access to water especially in the cafeteria? 3) why is the playground at Dove Hill so neglected and repairs denied? 4) why are all the other schools in evergreen district getting repairs except for dove hill? 5) why is Dove Hill Elementary not even listed on the superintendent Kathy Gomez website?	1/13/2017 6:01 PM
32	Lack of technology (chrome book carts) and lack of technology support	1/13/2017 8:38 AM

34	administration gives information to only "in" families or preferential treatment is given to friends or family members. While others in need are getting leftovers	1/13/2017 12:23 AM
35	Special need children don't have enough support	1/12/2017 9:56 PM
36	Science teachers for the STEM lab, science prep, equal spending across the district for technology, support from our district office, and RSP teacher instead of a revolving door sub.	1/12/2017 6:07 PM
37	Common core - how does it connect to middle school & high school learning and college application. Financials of the district - how are money spent.	1/12/2017 10:37 AM
38	future plans about low school enrollment	1/12/2017 9:40 AM
39	Class size, the lower the school performs the less children should be in the classroom. There are some communities whose children are developing coping skills that make behavior in class more difficult. Priority class size should take these challenges into account no matter what the grade level.	1/12/2017 8:57 AM
40	Programs for advanced learners; add a second elective at the middle schools (so a child could take a foreign language plus band, for example)	1/12/2017 8:02 AM
41	Physical Education-my child loves the Art Prep teacher, it would be a nice addition for a PE teacher and this would guarantee at least 50 mins. a week	1/11/2017 6:47 PM
42	health, nutrition, fitness	1/11/2017 5:51 PM
43	The school administrative staff (Kerry Principi at Carolyn Clark) should be more friendly and helpful with parents. We do not owe her anything.	1/11/2017 4:25 PM
44	My children's school continues to teach a false history based more on fairy tales than on actual history. One example of this is my oldest child in grade 3 learning that Christopher Columbus discovered America and was a hero, despite never setting foot in North America and his disgraceful treatment of the indigenous population. I am not saying she needs to learn that level of detail, but why lie to her and the students and not use the day to teach about the indigenous populations of the Americas instead. Likewise with Thanksgiving, why teach events about the day that are historically inaccurate and depict the Native Americans in stereotypes and as caricatures? Another area the District has failed to address is how they plan to prevent our schools from becoming a target by a would-be shooter? I understand and support the shooter awareness training my children practice each year, but it would be nice for the District to address more about safety prevention and not simply be made to feel the only plan is to cross our fingers and hope it never happens.	1/11/2017 4:21 PM
45	There should be more computer coding classes	1/11/2017 3:54 PM

57	Need bus service everyday to and from school.	1/10/2017 8:24 PM
58	Emergency Preparedness (adequate supply of snacks & water bottles in classroom)	1/10/2017 8:19 PM
59	Providing the same level of education at all schools. The schools that are in the million dollar communities receive an higher education than the communities that are not located in the evergreen hills.	1/10/2017 6:49 PM
60	LeyVa is being depleted and divided by reduced enrollment, yet the district hasn't proposed redrawing the school boundaries. The other two middle schools are impacted and half of LeyVa's classrooms are empty. Also, the district should cooperate with ETA and ensure the teachers get an adequate raise this year during negetiations. Why distress the teachers with the stress of having to fight for a fair raise. Teachers are the heart and soul of the district and should be taken care of not marginalized. Teacher morale is way down because of the ongoing tension caused by district leadership and the board. Be fair and stop the doom and gloom. Finally, Kelly Kientzy should be principal of Leyva. She is hard working, passionate, she truly cares about the students, the community, and the teachers. We would do anything for her. Consider making her principal next year. Get over the pettiness and do right by her, by LeyVa, and especially the kids.	1/10/2017 6:23 PM

70	Law requires teaching about LGBT people to our students, yet we have no such curriculum: LGBT people in history, science, literature, LGBT rights, human rights	1/10/2017 2:42 PM
71	I'd like to better understand the requirements for classes at the middle school level and how our elementary school is preparing our kids for them. For example, there are different math classes at Chaboya. What the are requirements to get into each? Are the 5th/6th grade math courses covering what is required to get into the higher level courses in 7th? If not, what is required outside of school. It seems this varies by teacher because it appears some teachers are way ahead of others on certain topics.	1/10/2017 1:58 PM
72	Wholistic growth of students needs improvement	1/10/2017 1:49 PM
73	special ed elementary to middle school transition, middle school class size, substitute shortages	1/10/2017 1:37 PM

76	Teachers' well being, happiness, and joy of teaching	1/10/2017 1:23 PM
77	music education	1/10/2017 1:13 PM
78	Extended Care/ Child Care. As far as district priorities, I feel that although we allow for other programs to use our facilities for after school and extended care, it would be more reassuring and accessible if our district had a district-run program for extended school. It would also meet more of the needs for families in our area, many of whom are working parents or who have afternoon/evening work hours so need care after school until another family member can pick up child. As an employee, I also feel that this would have some costs but may eventually be a good way for the district to obtain income for these extra childcare services. As an employee whose children attend another school district, I greatly appreciate and utilize their after school care program. I believe that the district can supplement STEAM/extension programs through these extended daycare programs as well and help students better access technology that they might not have at home.	1/10/2017 1:13 PM
79	1. would like more advanced math, math subject is progressing too slow. 2. would prefer a weekly letter from the teachers to update what were taught at school. 3. would like to have more science/engineering curriculum for the kids. 4. if possible, more PE sports types taught by professionals like soccer/baseball/volleyball/basketball, etc., especially team sports, at least introduce the kids to the sports.	1/10/2017 1:07 PM

84	Our school is not having any academic challenge classes for kids and smart kids are not challenged enough in the school. School plays the most important part in the overall development of the kid and it is really important that school provides the challenging education so that kid is able to learn as per his capability. At the other hand our school is also lagging in providing special attention to the kids who are behind in English Language as its not there primary language at home.	1/10/2017 12:31 PM

RESPECTFUL & COMPETITIVE offer for salary increase in next contract with ETA; nearby districts routinely agree to 5-10+% yet we are consistently offered <4% non-retroactive. 92	As a student in SDC my child has attended his fourth school in three years. It would be nice to have some regularity and be able to attend the same school throughout elementary. 95	The Strategy and core curriculum for teaching mathematics worry me a lot as it has no structure and the fundamentals are extremely confusing & weak.	1/10/2017 11:16 AM
96	1. School safety - this has been brought up time and again in every available forum by the parents - nobody seems to care. Case and point for my child's school (Evergreen elementary) - no crossing guard at the 2 most heavy traffic intersections at school - are we waiting for an "incident" to happen? 2. Anybody (and I mean anybody) can walk into the school during school hours, unhindered - without the safety of a proper gating mechanism / fence. This is unacceptable in most schools even in California.	1/10/2017 11:15 AM

103	Class sizes are too high, students are bussed to non-neighborhood schools (even in kindergarten), and this makes the district seem to care more about hoarding money than their students. Also, the emails are very one-sided, and too conversational to seem professional.	1/10/2017 10:59 AM

114	The district needs programs for the high acheiving students such as GATE. Also, as negotiations start I hope the district will consider making amends with the teachers by not making them fight for a raise and to keep their benefits. The teachers deserve a raise and the district needs to stop hoarding all my tax dollars. I want to see more money in teacher budgets, afterschool programs, teacher salaries, etc. We are seeing many teachers leaving the district for greener pastures because this is no longer the desirabile place to work that it once was. Value the teacher, take care of them, and don't fight with them. Make this a great district again so we can keep and attract the best teachers. In turn the students will benefit because a valued teacher is going to be a productive teacher.	1/10/2017 10:38 AM

3	I understand that the district is in declining enrollment, but we need to bring back programs and opportunities to make families want to stay at our schools. Teachers need to be made a priority: prep, planning time, good PD opportunities (make-and-take PD). Many of the district's decisions these past 5-7 years has brought Evergreen from a top district in the area, to a middle-tier district. We need to repair relationships with teachers; bring back trust. We need competent decisions being made in terms of curriculum, PD, report cards, etc. There are many shifts happening in education (common core, new science standards, focus on STEAM/PBL), but we always seem to be behind the curve. We are always playing "catch-up" - we no longer lead the way. We need a good vision and good leadership to bring Evergreen back to the top.	1/31/2017 7:35 AM
4	1. Offer Independent Study as an option to parents who wish to take a longer vacation with their child. Cal Edu Codes certainly allow that. 2. Compulsory attendance policy to be enforced for kids 6 years and older. Again, as per Cal Educ Code. 3. Provide good teachers. Spend majority of budget on ensuring this. At SOE the KG students are experiencing a round-robin of substitute teachers. We can see their performance suffer at field trips, at school cultural programs. 4. In general be more flexible and make things even more flexible than Cal Edu Codes. Currently it seems to be less flexible than Cal Edu Codes.	1/25/2017 11:41 PM
5	The thefts at schools are out of control My kids get pencils paper jackets books stolen from their backpacks. The fundraisers seem off every time so it becomes very conserning. Why it costs the parents for school bus field trips, also the cost for the day to use a bus is over \$1000 that seems like the district over charging the schools for use.	1/25/2017 10:04 PM

8	I think bullying is not taken that seriously in elementary schools. The worst punishment for the child is suspension, but not kick out of school. Some kids just continue to be bad and still move up in grades and still stay in the same school. It's disappointing to see the same trouble kids hurt their peers physically/emotionally year after year.	1/23/2017 8:32 PM

12	We are very disappointed to learn that the Evergreen School district doesn't value a child's vast learning opportunities from travel. Though I agree that regular classroom attendance helps children learn new things, obtain new knowledge, and socialize. Travel does provide multiple benefits and children can achieve similarly (learn new things, new knowledge, new perspective, new language, new social skills). Your absence policy puts absence due to vacation (travel) to be unexcused. It is better to have a better absence policy due to travel. It doesn't need to be excessive so it can be abused. Each school year, allow and encourage up to 2 weeks for children to travel to get out of their bubbles. Encourage international travel as well so they know the U.S. isn't the greatest country on Earth. Also, homework requirement during travel should be a journal entry for each day. Be flexible and accept that there are multiple ways for a child to learn outside of the school and the classroom.	1/23/2017 3:10 PM
13	Evergreen used to be the place teachers wanted to teach. Not so much anymore with on going negotiations.	1/19/2017 1:07 PM
14	I feel that with the forever changing budget and measure expenditures education has suffered. My children time in school has been a process of teachers learning along side of them. Each year the basic standard has changed so much that they will be so far behind before they realize its too late. Students education is a priority and a privilege that needs to be taken into to better accountability. If a child is getting straight A's then falls to F's the issue was with the way the subject is taught. Our kids only get one chance at elem school and they are being overwhelmed by constant change and upsets and rules	1/18/2017 10:32 PM

15	-Time, Time, Time is needed to brainstorm, design and execute teaching practices. There is numerous work that needs to be done/completed with the common core standards. We are feeling stretched thin trying to teach it all! -A common core state standards report card should be designed and rolled out for 2017-18 school year. The amount time that is spent on an document that does not align with the CCSS is time wasted. -The Super and her school board needs to be seen at the school site. I have seen Dan, several times this year, but that is expected. If the Super is going to criticize a site then she needs to get out of her office and visit. -Value your teachers. Evergreen School District was previously know as THE district to work in, let's bring that mantra back. -Bring back Writer's Workshop from Teacher's College or at the least organize a cohort or support to teacher's that are presently teaching. -seems like a hodgepodge of random programs at various school sites. Is there any interest in designing of magnet schools or specialized focus of certain schools?	1/15/2017 8:22 PM
16	teachers at Clark have been inconsistent on teaching content, style, homework load etc. hope to see some improvement. also feel that the school i.e. clark has not invested enough time and energy on standard test preparation.	1/15/2017 5:21 PM
17	I would love to see the district put in as much money, resources and time to make all schools stronger. Seems that Katherine Smith has become their shining star and more dollars go there...good publicity after all the negative...while other schools have outdate technology, infrastructure, etc. Maybe instead of focusing on one, you should focus on other ideas of successful schools, like smaller schools and more personalized learning. It seems like the smaller schools get lost in the shuffle.	1/14/2017 4:48 PM
18	I believe the district should really spend time at Dove Hill to get to know the community better. The staff and teachers are amazing. Almost every parent feels the teachers have a passion for what they do. He children love the school and it's a shame it's being so neglected.	1/13/2017 6:04 PM

20	I have noticed a change not for the better with in the last year at my children's school. It has always been a diverse school, now parents can't get information unless they wait in line in the administration office with kids buying candy smencils asking to calls home. I don't know where the support is. We seem to have a problem with bullies and staff telling them that's life deal. My kids have not been happy about going to school at all this year.	1/13/2017 12:30 AM
21	School district concentrates in academic area too much than other areas, such as social, art, PE classes.... and rely too much on the so-called technology, forget about the creative, free-thinking of children	1/12/2017 10:01 PM
22	I want to feel pride in the Evergreen District again. I feel that there is a divide between the teachers and some district office personal. I would like our Superintendent to visit our site (I haven't seen her in over 2 years). I would like to feel that my site is valued by our district office. The constant loss of amazing teachers, and our inability to hire and retain excellent teachers, seems to have more to do with possible hires/current staff looking else where as our district no longer has a wonderful reputation. Bring back the family feel. I'm still heartbroken when I remember the DO employee(s) had a salary increase while teachers took pay cuts during the recession. That is not looking out for our student...we should have stood united not divided.	1/12/2017 7:09 PM

26	Any thought about designing a model for a magnet school or special services for the high achieving schools. Seems like the lower performing schools receive the pilots programs and then the programs don't materialize for the middle to higher schools. Hire Special Education teachers to teach the students, not hiring 20 day subs and then another 20 day sub. How is this putting students 1st? School Board Members should get out and visit the schools! Visit with teachers, staff and students.	1/11/2017 6:55 PM

38	Growing up in Evergreen School District was an exciting, supportive and inviting environment in the 90's, with great teachers and leaders such as Susan Hannah (principal), Diane (the school nurse), Mrs. Harris and Mr. Bettencourt. They cared about the students, they made learning new subjects exciting and knew how to deal with conflicts with students when they arose. It seems that the caliber of educators has gone down hill since then, with Principals and Teachers today, the students are disengaged, the teachers teach/read from a book with no real thought on adding an exciting flare to the lesson plan, labeling children as "to talkative" or "disruptive" therefore the child should automatically be labeled as having a learning disorder and placed on Ritalin. There is still a handful of good teachers in the school district, BUT it is rare which is unfortunate. The school district should be more involved with assessing teachers and principals on their effectiveness and positive/negative impact in their schools. The superintendent or an assistant should attempt to pop-up at schools during the principals coffee so that parents can address their concerns with someone who can make a change rather than voicing it to a principal that keeps the issue to themselves... it's not until the issue boils over will they then address it.	1/10/2017 7:06 PM
39	Kelly Kientzy/Hodgin is the best person to lead Leyva, teachers need an adequate raise and need respect from DO, bring equity to the district by moving boundaries and implementing programs at the schools that are without adequate funds. Bulldog Tech has divided Leyva and there is a lot of resentment on both ends. They couldn't even draw enough students and took all the ELD kids, obviously not a good idea if they are begging kids to attend and forcing transfers.	1/10/2017 6:27 PM
40	A lack of diversity in teachers, I believe, results in a lack of understanding and cultural bias/prejudice when interacting with diverse parents.	1/10/2017 5:03 PM

44	I think our district is in sad shape, currently. There was a time when decisions in this district were based on sound educational research. Those years are far in the past.	1/10/2017 2:44 PM

47	We should think about how we can make Evergreen District the best district in the valley . Not a below par school district but a world class school district for our students. Do this and people will want to live in the district regardless of the cost of housing.	1/10/2017 1:38 PM
48	Are they still a family?	1/10/2017 1:24 PM
49	I'm a little saddened by the talk about building bigger/better facilities to attract the community. The buy-in with the families in Evergreen is to meet their needs. Most families are working as much as possible to survive in this expensive area. Daycare/childcare before/after school is needed. Extension programs some subsidized and some fee based to try to meet the wide SES of our families are necessary. Speaking as a parent, a new school sounds great but I'm still not going to choose that school if I can't get off work early enough to pick my child up. I know there are programs on our site but they aren't district run and I believe we are missing that here in Evergreen.	1/10/2017 1:17 PM
50	hope the school district has a rating/evaluation mechanism for teachers, allows feedback from students and parents at the end of school year. This will help keep the teachers quality and teaching process consistent over the years.	1/10/2017 1:10 PM
51	Very proud of Laurelwood, they are moving in the right direction...would like to see a smaller ratio of child/teacher	1/10/2017 1:06 PM
52	More space (ie. classrooms) are needed to assure safety for students and staff with the hiring of additional staff to maintain an adequate class size (not exceeding the max or retaining it at 25 or lower, if possible).	1/10/2017 12:48 PM
53	Stop hoarding our property tax dollars. Schools have their hands out for donations while the district sits on our (home owners) money. Stop playing poor and use the money in reserve to pay teachers, add technology, fully fund sports at the middle schools, and add more after school enrichment opportunities for our children.	1/10/2017 12:42 PM

54	I have never seen a school which is so friendly with the families. But due to budget constraints, it really lacks some of the good programs like I mentioned earlier and that is affecting the child's overall development.	1/10/2017 12:37 PM
55	Very sad: Has lost its sheen of excellence and is just another east side school district.	1/10/2017 12:00 PM
56	Unfortunately the moral and trust between the District and the teachers is steadily decreasing. I wish there wasn't such a gap between the two sides. Evergreen use to be the district where everyone wanted to teach. That isn't the case anymore.	1/10/2017 11:56 AM

59	Be more transparent with the budget. Offer more electives and opportunities at the junior high level to compete with charter and private schools. Class sizes at Junior High are too large and should be capped. Be more consistent at the elementary level SDC. Equity across the schools no matter their economic location.	1/10/2017 11:48 AM
60	I love working for the District. The District has been very supportive of the libraries and I greatly appreciate the fact that they have saved our jobs but if there is any way to increase our salary and our hours, I would love it even more. Just to put a bug in your ear, we would love it if we had medical added to our retirement package. That would be icing on the cake for me to give the District a top score. I feel like Classified staff are not valued in the same vein as teachers are. We feel like lower class help. That's not right. I don't like that we are considered separate from teachers. We all work for the same company. When I worked in private industry, we were all treated the same. When someone won, we all won. Teachers get medical, a trust, a separate day that is greatly celebrated to honor "Teacher Appreciation Day". We have one for Classified but no big deal is made of it at my school. No teachers recognize us here that I have seen. I don't like it.	1/10/2017 11:41 AM
61	Overall, the core curriculum seem to be awkward and teaching strategies/methodologies listed for mathematics education for K thru 5 grades are extremely confusing and baseless.	1/10/2017 11:17 AM
62	Great school district. Happy to have my kids in our schools.	1/10/2017 11:15 AM

67	1. Ban Stephanie Kass, who has made documented threats to at least 1 child at school. 2. Shape up Laura' Barde's bad attitude, which looks like a desire to kiss-up to Hong Nguyen, which only increases the district's exposure to potential liability.	1/10/2017 10:55 AM
68	Awesome school district, me and my family love it	1/10/2017 10:50 AM
69	Questions within this survey that lump together teacher, principal and school district could result in misleading data that doesn't address specific areas. Suggest separating all the groups out into separate questions	1/10/2017 10:49 AM
70	It makes me sad to see this district going downhill. The district and the board need to take a closer look at their choices. Administrators are bullying teachers, teachers are getting their salaries and benefits CUT, students are losing extra-curriculars, there is a huge disparity between the haves and have nots (which the district can help remedy, there is no GATE or honors programs to address the needs of our gifted and high achieving students. I know there is a huge surplus in the district budget so why are we not using our tax dollars to improve the schools for our kids? Why is this money being hoarded? For political strategy? Why are Chaboya and Quimby impacted and LeyVa is half empty...move the district lines so students can be distributed equally, and we can make use of existing facilities rather than building new classrooms. Why is the district crying poor and then hiring principals on assignment and a public relations guy. So much doesn't make sense. Focus on what is important and not all this fluffy showy nonsense.	1/10/2017 10:47 AM
71	It is important to rebuild respect, trust, equity of voice, inclusion of all parts of the district: administration, teachers, parents, students and support staff. Build strength together not against each other. Look at the bigger issue with state funding.	1/10/2017 10:40 AM
